Our aim is the turn the *Game On* book into a movie.

diagnosis
arrives
and brings
fear!***

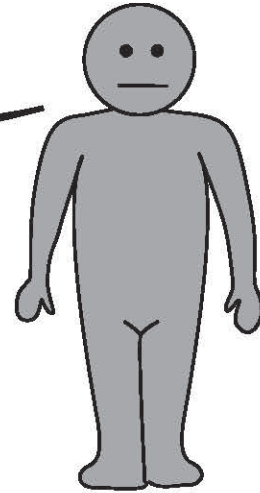

Game On!

CANCER! → FEAR!

With a cancer diagnosis, a common
and natural question is,

How long will I live?

But there is another question to be asked first.
It will affect the answer to how long you live.

That question is,
How well will I live?

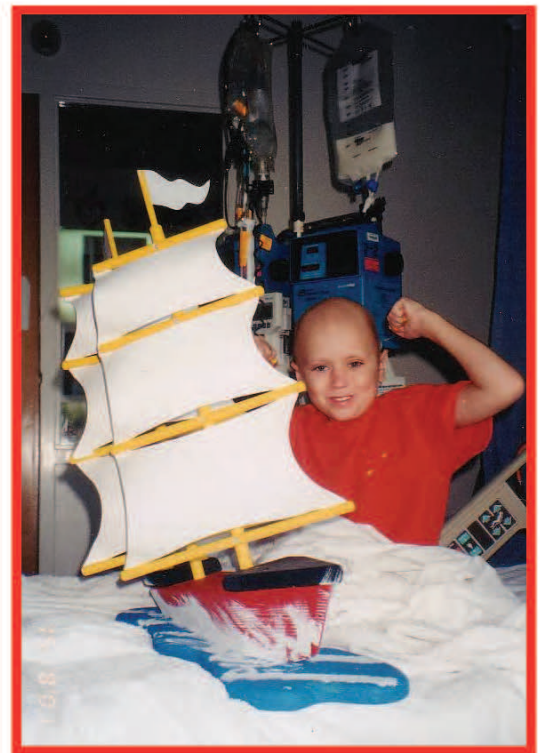

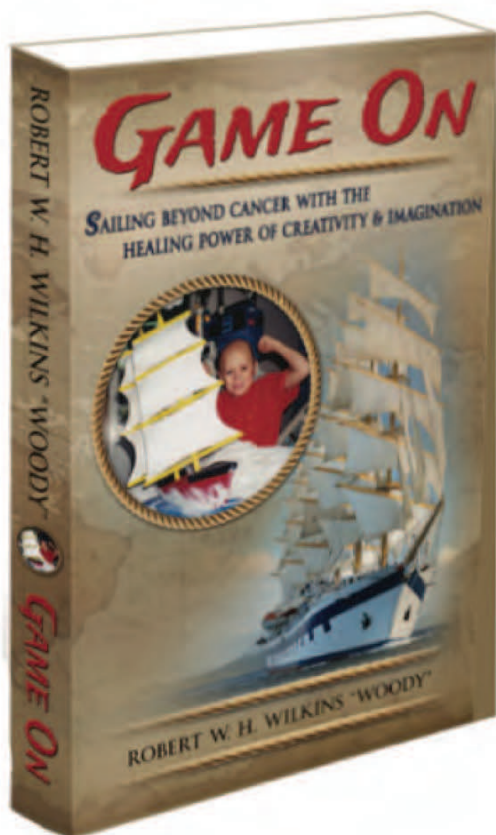

Two words affect how well you will live.
These two words are "**over**" and "**on.**"

Is the cancer diagnosis **Game over?**

Or is the cancer diagnosis **Game On?**

What is **Game On**?

- 1 - It is a chosen, empowered emotional response to a cancer diagnosis.
- 2 - It is a program described in a book based on the true story of how a creative arts program can be used in a hospital setting to heal fear and empower the human spirit.
